

# Binh-Nguyen Ngo

I was a culinary school graduate and professional chef, but over the years, I built 30+ projects in groups or on my own and I am looking for a Software Engineer role where I can grow by constantly testing my critical thinking skills and cultivating my ability as a growing engineer.

## EXPERIENCE

### AWS Tip, Remote - Technical Writer

MAY 2023 - CURRENT

- Demonstrated expertise in creating informative and engaging content about AWS Cloud Development Kit (CDK) and its features.
- Fortified learned topics by guiding and teaching hundreds of viewers.

**PROJECTS** - All projects built with Typescript and React and deployed on AWS.

### Schedule.builders — Creator

- Optimizes the workflow of project estimators by offering a comprehensive database for managing clients, contractors, and projects, complemented by dynamic image storage capabilities.
- Created a design document and business plan that goes beyond my sole contribution in full stack development.

### StackOverflow Clone — Creator

- Showcases full CRUD capabilities for multiple entities through thorough proficiency in using GraphQL with AppSync, DynamoDB single-table design, and intuitive UI/UX design.

### Waitloss.live — Creator

- Showcases full CRUD capabilities for online reservations and a central management page implementing data fetching using GraphQL with AppSync, DynamoDB single-table design, and intuitive UI/UX design.
