I have built 30+ projects in groups or on my own and I am looking for a Software Engineering role, where I can grow by constantly testing my critical thinking skills and learn from the experience of other seasoned team members.

EDUCATION

University of Washington, Seattle, WA

EdX Boot Camps, *Certificate of Completion*

DECEMBER 2022 - MARCH 2023

Full Stack MERN Developer

PROJECTS

Eatsy — *Creator*

- Food delivery service for home cooks. Built with React.js, Node.js, Socket.io, and MongoDB
- Voted best UI/UX design by instructional staff
- Voted best overall project by peers

Video-Share — *Creator*

- Video conferencing web application that allows the user to share their screen, videos, and real-time text chat thanks to Socket.io. Built with Materialize, Sequelize, and Node.js.

Portfolio - *Creator*

- Personal portfolio created with React and deployed on AWS Cloudfront through AWS' Cloud Development Kit.

Code Tools - *Creator*

- Personal cheatsheet for everything I learned from AWS CDK, React, Leetcode, etc that I deem useful to record in order for myself and others to remember. Created with React and deployed with AWS CDK.

E-Commerce Database — *Creator*

- MySQL database and backend app for an e-commerce site with full CRUD functionality.
