EXPERIENCE

Xenia Gifts, Remote - Software Engineer Intern

MARCH 2023 - CURRENT

- Decreased platform downtime by 20% through critical bug resolution.
- Collaborated on the integration of a personal enterprise API, enabling secure and seamless transactions for users.
- Played a pivotal role in the optimization of database queries, leading to a 30% improvement in data retrieval speed.
- Assisted in 40% reduction of manual testing through automated framework development.

AWS Tip, Remote - Technical Writer

MAY 2023 - CURRENT

- Demonstrated expertise in creating informative and engaging content about AWS Cloud Development Kit (CDK) and its features.

PROJECTS

Waitloss.Live — *Creator*

- Website application that was created for clients that want to streamline the reservation process. Written in Typescript, styled with Tailwind, and deployed on AWS through CDK.

Eatsy — *Creator*

- Food delivery service for home cooks. Built with React.js, Node.js, Socket.io, and MongoDB
- Voted best UI/UX design and best overall project
