Binh-Nguyen Ngo

I was a culinary school graduate and professional chef, but over the years, I built 30+ projects in groups or on my own and I am looking for a Software Engineer role at Floqast where I can grow by constantly testing my critical thinking skills and cultivating my ability as a growing engineer.

EXPERIENCE

AWS Tip, Remote - Technical Writer

MAY 2023 - CURRENT

- Demonstrated expertise in creating informative and engaging content about AWS Cloud Development Kit (CDK) and its features.
- Fortified learned topics by guiding and teaching hundreds of viewers.

PROJECTS - All projects built with Typescript and React and deployed on AWS.

Schedule.builders — *Creator*

- Optimizes the workflow of project estimators by offering a comprehensive database for managing clients, contractors, and projects, complemented by dynamic image storage capabilities.
- Created a design document and business plan that goes beyond my sole contribution in full stack development.

StackOverflow Clone — *Creator*

- Showcases full CRUD capabilities for multiple entities through thorough proficiency in using GraphQL with AppSync, DynamoDB single-table design, and intuitive UIUX design.

Waitloss.live — *Creator*

- Showcases full CRUD capabilities for multiple entities through thorough proficiency in using GraphQL with AppSync, DynamoDB single-table design, and intuitive UIUX design.

EDUCATION

University of Washington, Seattle, WA

EdX Boot Camps, *Certificate of Completion*

DECEMBER 2022 - MARCH 2023

Full Stack MERN Web Developer
